The ACE first-aid kit can be customized with your specifications.

CE

FIRE BLANKET
REF : FIREBL

Description: Fire blanket is a specially treated glass fiber fabric which is very soft, smooth and does not irritate skin. Our products have passed standard of European EN-1869:1997 & REACH and American ASTM F 1989.

The thickness of the fire blanket is o.43mm. In an emergency, it is a perfective covering, isolating our body from the heat source during an escape.
it can be easily wrapped on any irregular objects. When compared with the other kinds of fire distinguishers, fire blanket has the following advantages:

A. It has no expiry date.
B. It is environmental friendly.
C. It is a good insulator and high temperature resistance.

Fire blanket is easy to carry & store and simple to use. It is the best choice for emergency, fire protection and fire fighting.

CE

EMERGENCY EYE WASH STATION
REF : EYEWASH

Description: Portable Eyewash Station Material: High quality ABS plastic

Technical parameters: Customized
Flow: Sustainable water more than 15 minutes.
Performance: super acid, alkali, salt, oil and other corrosive chemical substances.

Advantages:
Able to provide timely and professional protection, and convenient.
No installation required, may need to install or use according to the site.

CE ISO 14001

RESCUE BED POLE STRETCHER
REF : RESCUE

Description: Army folding pole stretcher with feet - with the option of folding neatly in half for space saving storage.

UNIVERSAL RESCUE BED ALUMINIUM OR PLASTIC
REF : RESCUEB

Description: Universal rescue stretcher sold with: Nylon rope along the perimeter. 3 belts of 50 mm in nylon with quick release. Closed cell waterproof mattress. Pre-formed polyethylene footrest with adjustable position in high-density polyethylene shell attached to an aluminum frame.

Material: Rope/Belts: Nylon.

Footrest: Pre-formed polyethylene.

Weight: 13,5 kg.

Limited Loading: 159 KG

SLING SYSTEM FOR VERTICAL TRANSPORT OF STRETCHERS
REF : TC103

Description: Sling system for vertical transport of stretchers (specially designed for TC102). Adjustable length. Equipped with 4 hooks.

Material: Lanyard: Polyester.

Weight: 2,1 kg

RAPID EVACUATION TRIANGLE
REF : TC022

Description: Rapid evacuation triangle. Fits all body types with its 12 adjustment points.

Material: Polyester.

Weight: 1,1 kg

Color: Black / Red

CE EN 1498 CLASS B

ANTI-SLIP PAD
REF : ANPAD

Description: Anti-Fatigue Slip Floor

-Resist Water, oils and Grease
-Perfect for high traffic area
-Homogeneous vinyl laminated
-Double-thick, rubber foam base

Size & color: Customized

ANTI-SLIP SHOE COVER
REF : ANSHO

Description: Disposable Shoe Cover Features

- Great elasticity, More durable
-Waterproof, non slip
- Breathable, hygienic, Comfortable and biodegradable

Material: PP Nonwoven Fabric

Size: 15x40 cm

Color: All colors

GLISS GRIP ANTI-SLIP MINERAL SURFACES
REF : GGPM

Description: Anti-slip treatment for mineral surfaces

GLISS'GRIP*Mineral* ®is a non-slip treatment from a new technology. Components of this product react with silica, a real skeleton of mineral materials. They graft new molecules of silica to the surface of the support, creating tiny bumps that greatly increase the effect of friction.

The risk of accidents due to slipping are reduced permanently, especially on wet surfaces.

GLISS GRIP ANTI-SLIP METAL SURFACES
REF : GGPME

Description: Anti-slip treatment for metal surfaces

Metal surfaces, even structured, are particularly slippery when wet.On public roads, sewers and various plates constitute a real trap for pedestrians and cyclists.In the professional world, many metallic elements can be hazardous to employees: warehouses, stairs, truck tailgates, loading docks ...

GLISS GRIP ANTI-SLIP WOOD SURFACES
REF : GGPME

Description: Anti-slip treatment for wood surfaces

Wood surfaces are particularly slippery, especially when wet.
Walkways, stairs, pool surrounds, decks are places that can become dangerous to their users.

To avoid potentially serious falls, we must secure these areas in a sustainable and effective way.

FLAMMABLE LIQUID STORAGE
REF : JUSTRITE

Description: Justrite® Flammable Liquid Storage Cabinet - 250L

- **Fire tested, FM Approved, exceeds AS1940**
- **Fully welded construction, 1.2mm steel**
- **Double wall - 40mm thermal barrier**
- **Self-closing & latching doors**
- **High gloss powder coated**
- **Dual vents c/w built in flash arresters**

`

OIL PADS
REF : OPADS

Description: Absorbs up to 33.81 gal/bag
-Keep floors dry, clean and safe
-Perforations allow versatility for any size you need

Size: On request

RECYCLE RAGS
REF : RRAGS

Description: Recycle rags, 100% cotton
-Mix light color
-Mix dark color

Quantity: By KG

UNIVERSAL SOCKS & PILLOW
REF : RRAGS

Description: Quickly clean up larger spills of any liquid
-Ideal for solvents, lubricants and cutting oils
-Recycled fiber fillers are BTU rich for multiple disposal options
-Use pillows for absorbing drips and large spills and socks for wrapping around leaky barrels

Size: On request

LADDERS
REF : LADDER

Description: Our ladders are an ideal for use in factories and warehouse

Material: Steal or Aluminum
Load capacity: 170 KG

1) Dimensions and Design: Customized

2) Anti-slip feet
3) Robust, strong anti-rust.
4) Auto-locking knobs
5) with locks surely and safely into all positions.

SAFETY MIRRORS
REF : MIRROR

Description: Outdoor & Indoor Convex

Complete with telescoping arm and mounting bracket

Full Dome, Half Dome & Quarter Dome

GLOVES, MASK AND EARPLUGS DISPENSER
REF : DISPEN

Description: Clear acrylic dispenser
1. Entirely made of durable crystal acrylic with light weight
2. Nice design
2. All sizes, colors, logos, and designs can be made as your request.
